This is your occasion for you to give your guests a glimpse of your personal wedding style.

I will help you create a unique Save the Date that is just so you!

*"We asked Sami to create a Personalised Wedding Package for our special day. Our Save the Dates, Invitations, Signs, Wedding Favours, Table Names, Place Names and guestbook suited our style perfectly!"*

# Invitations

Your wedding invitations are the opportunity to give your guests a taste of what to expect on your special day.

I will work with you to create a bespoke hand-crafted design that sets the tone of your wedding style.

I will help you create a concept that we can then use as a unifying narrative throughout your Personalised Wedding Package.

*"Sami took a vague idea from me and turned it into exactly what I wanted, without me even realising that is what I wanted!"*

Welcome each guest to your wedding with your personalised Welcome Sign that suits your wedding style and venue.

Then let your guests know when and where every event of the day is happening with your very own matching Order of the Day sign.

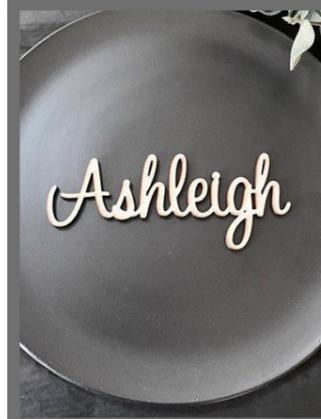

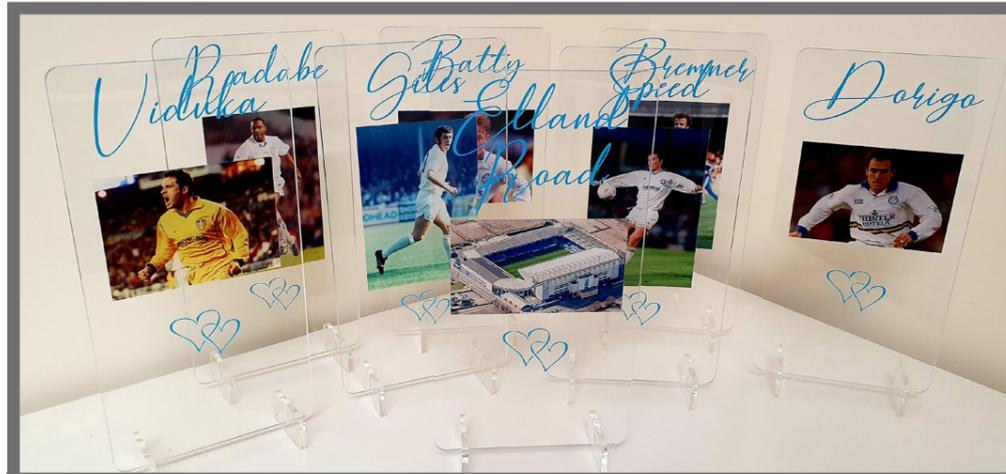

We can also create signs of all shapes and sizes to make sure that your guests have the best day too!

Put the cherry on the cake with your very own personalised cake topper!

Add instant chic to your wedding cake as you and your loved one embark on your wedding journey.

## Mr & Mrs Freshwater

I loved working with Tom and Emma to design and create their Personalised Wedding Package. During our initial consultation I found out that they were planning on naming their tables after brands of bottled water, (to play on their surname Freshwater). I had an idea for a table plan which would illustrate this idea in a unique and creative way. Once this initial concept was agreed, everything else fell into place to create a range of bespoke products that all complimented The Freshwater's special day.

*"My husband and I cannot thank Just Lovett Design enough for our Personalised Wedding Package.*

*From our first discussions, Sami's passion and professionalism really were evident.*

*She really listened to my ideas but with her creativity she was able to create a range of final products that were far above my expectations.*

*We received so many compliments from our wedding guests about Sami's products.*

*We loved that all the products were so unique and personal to us.*

*We would highly recommend Just Lovett Design for Personalised Wedding Packages."*
